

PwnSch00l

WHAT?

- Three sections - web, pwn, crypto
- Web today, pwn next week, crypto in two weeks
- Sections rotate - every 3rd week will be on the same section
- Next web will be a workshop by security professionals

- Today is half lecture, half workshop content - let us know your thoughts
- Time is limited, so we'll have to go fast and self-learning is necessary - but we start from the basics
- For lab advice and playing CTFs, we meet every Saturday - do come by

UNI COURSES?

- Computer Security (INFR10067:)
- Introduction to Modern Cryptography (INFR11131)
- Secure Programming (INFR11098)
- Internet of Things Systems, Security, and the Cloud (IoTSSC) (INFR11146)
- Usable Security and Privacy (INFR11158)
- Blockchain and Distributed Ledgers (INF11144)
